Concerning stand design and equipment please note and comply with the Technical Regulations (Info 4) and the Important information for FENSTERBAU FRONTALE (Info 1) which are published at [www.frontale.de/en](http://www.frontale.de/en).

Exhibitors are obliged to decorate their stands carefully and in good taste. Stands which do not conform to the accepted standards will not be approved by the organizer until the necessary changes have been made. Unacceptable advertising will be similarly affected.

The most important regulations are stated below:

- The overriding principle for the design of all exhibition stands is transparency. At least 50% of the sum of the gangway sides must not be obstructed by structures or fittings.
- The minimum height of the stand construction on all closed stand sides is 2.50 m.
- All stand partitions, advertising carriers or other design elements that are adjacent to neighboring stands and that are visible above a height of 2.50 m must fulfil the following requirements: white, clean, no signs of damage, no texts or graphics, clear of installation material.
- A solid demarcation of stand space from the neighboring stands is mandatory. In the event that no stand construction system belonging to the exhibitor or rented from a ServicePartner of NürnbergMesse is used, non-transparent stand partition walls (back and side walls) with a minimum 2.50 m height are required. It is not permitted to use roll-ups and poster displays or the stand walls of neighboring stands for stand demarcation.
- If no rental exhibition stand is used, a fascia (0.30 m high) must be fitted on all open sides of the exhibition stand. The fascia is not required; if the necessary stand quality is ensured in some other way.
- For all stands that exceed a building height of 3.50 m completing the checklist for stand design in the Online ExhibitorShop is mandatory.
